Performance and Analysis

Business Performance Summary

The company focuses on improving production efficiency, including cost control by bringing innovation to grow our business. The recent business performance shows an increase in net profit compared to the previous year. Our business expansion has been obviously seen in both public and private sectors (contractors and construction companies) such as various electric train projects, expansion of Suvarnabhumi Airport, department stores and the Universal Service Obligation (USO) Net project (Community Digital Centers).

Key Milestones

The Company produces metal furniture, exports our products to a big customer in the United States of America. It is the first important step for the Company to succeed in international markets which is aligned with a company goal to step up to global competition. Moreover, Additionally, the Company has invested in NITTO KOGYO BM THAILAND Company Limited (an associated company) since 2018 and has cooperated with Nitto Kogyo Corporation, our Japanese business partner, to accomplish company goals and generate positive business results.

Risk Management Policy

- Material fluctuations as the world's material price and government's policy for material price management and control: When material cost is high adjusted price, it will be effected to production cost and profit margin if sale price is unable to raise up according cost as higher in case of insufficient stored materials.
- Competitor number is increased in the industry market: In steel product's production and supply industry is in medium level of competition. We concern the customer's satisfaction for quality products and services with modern technology machines and maintain relationship and trust to customers continuously.
